Dear Parents/Guardians:

As an administrator who has “stepped into” a variety of new building level and district level experiences, I have always worked from the assumption that the people that best know and understand their school and/or district are those employees that work at the school, the students that attend the school, and the parents who send their children to the school. While the perceptions and realities of the different constituent groups seldom match perfectly, and everyone does not necessarily agree with the others perception of the school, the perspective they all offer is invaluable to the new administrator whose job it is to remedy any problems, keep the great things intact, and work to continue the concerted effort for continued program improvements so that all children learn and enjoy a great educational experience that they all deserve.

Accordingly, the “entry plan” I have always followed is to seek opinions from all constituents. My efforts already began with faculty and staff, but now I am seeking expanded views from parents/guardians and the community in general. On the back of this letter you will find a form with a few basic questions about A.S.K. If you desire, please complete the form and return it to me at your earliest convenience. You are also welcome to either e-mail or call me with your opinions. This feedback process it not intended to focus upon any individuals, but it is intended to hear everyone’s thoughts about the strengths and weaknesses of the school in more general terms. Based upon the input from the various constituent groups, we will then plan accordingly. I appreciate your thoughts and efforts.

As always, our goal is to provide the best educational program we can and your input and support is invaluable to that end.

Sincerely,

Craig T. Onofry Ed.D.
