

Compass Learning
11.18.14

WHAT IS COMPASS LEARNING?

Compass Learning is a suite of online and interactive software products with great potential to transform how teachers teach and students learn.

- ✓ Potential to increase student achievement*
- ✓ Provide opportunity for collaboration among teachers*
- ✓ Provide personalized learning paths based on RIT scores*

In addition :

this program allows us to do more with less

Curriculum (Odyssey)

=

ACHIEVEMENT

- *Seamless integration with NWEA*
- *SaaS (software as a service), web based program hosted externally and delivered via the internet*
- *Move district toward more effective student-centered learning*
- *Assess a student's strength and needs by determining mastery of grade level standards on subdomains and across the grade level*
- *Offers customized reports to track and measure progress*
- *Allow teachers to transition the data to instruction*

EMPOWERED TEACHERS

- **Assess**
 - **Prescribe**
 - **Instruct**
 - **Track and Measure**
 - **Parent Involvement**
- 

ENGAGED STUDENTS

- Helps students succeed in reading and math
- Learning activities are customized for each student based on MAP test results
- Students can use it at home or at school

<https://www.thelearningodyssey.com/>

GOALS

- *Every student complete 4-6 activities/week (ELA & math)*
 - *Encourage participation outside of school*
 - *Establish Teacher Goal-average score*
- 

As we move forward

- ***Additional teacher trainings***
- ***After school programs-ACES /AIS***
- ***Encourage home use***
- ***Virtual summer school model***
- ***Homebound programs***
- ***Flipped classrooms***

ONE DISTRICT~ ONE MISSION
