

Port Jervis City School District

2008-09 Contract for Excellence

Performance Targets

The New York State Education Department requires Contract for Excellence districts to establish performance targets for annual improvement on NYS exams or other measures. Our district has chosen to use NYS exams and the targets are as follows:

- a) Areas where we are meeting adequate yearly progress (AYP) = 2% increase
- b) Areas where we are not meeting AYP = Close the gap 10% between the current score and the performance index score of 200.

The two areas where we have been identified as not making AYP are as follows:

Middle School Math – students with disabilities subgroup

Middle School English/Language Arts – students with disabilities subgroup
