SUBJECT: BLOODBORNE PATHOGENS

The Port Jervis Public School District shall comply with the Public Employee Safety Health Act (PESH), Right-To-Know and Occupational Safety and Health Administration (OSHA) compliance programs. The Port Jervis City School District will comply with the OSHA final bloodborne pathogens standards. All staff, including nurse, athletic and physical education staff, teachers, custodians, cleaners, bud drivers and bus monitors employed by the district will be given HIV/Aids, Hepatitis B and Universal Precaution Infections Control training on an annual basis. Any of the aforementioned personnel who are at heightened risk of exposure will also be offered the Hepatitis B series vaccination, offered through the Port Jervis School Physician. Any employee who has been exposed to Hepatitis B will be offered the Post-exposure Prophylaxis Program.

Adopted: 3/18/03
