**SUBJECT: RESTRICTED ATTENDANCE OF EMPLOYEE'S CHILDREN**

To promote an appropriate instructional program and to insure the safety and security of our students, children of Port Jervis City School District employees who are not enrolled in the District are not permitted to be in District facilities during school hours, unless authorized by the building principal or supervisor. Additionally, any child of an employee, whether a student in the District or not, is not allowed in District facilities outside of general school hours without the explicit authorization of the building principal or supervisor, unless he or she is participating in a school-related activity.

Adopted: 3/18/03
