Student Wi-Fi Use Agreement

This agreement is made between Port Jervis City School District and the student (name) _____ for the duration of the 2023-2024 school calendar. The purpose of this Agreement is to set forth terms and conditions, as well as standards and guidelines, for the acceptable uses of the Port Jervis City School Student Wi-Fi Service. The school district expects students to become familiar with individual and institutional responsibilities for the use of the district student Wi-Fi and also to protect its electronic information. By choosing to use student Wi-Fi service, the user agrees to abide by the Student Wi-Fi User Agreement (below). All relevant School rules, regulations, and policies apply.

Student Wi-Fi Terms & Conditions

- You will be required to abide by the terms of the District Acceptable Use Guidelines and User Agreement.
- A valid username and password obtained from the Technology Department is required when accessing the student Wi-Fi Network.
- Internet access will be filtered to a standard compliant with the Children's Internet Protection Act (CIPA), and a record will be kept of all web pages accessed.
- School/District staff, including Technology staff, will not configure, troubleshoot, or repair personal devices.
- You will not be able to access any internal network resources, such as your "U:\:" drive, from your personal device.

- Though the student Wi-Fi network is designed to cover all of the school's common areas, no guarantee is made for signal strength or availability. Signal strength may vary depending on the location in the school and the number of devices simultaneously connecting to the network. Network outages may occur without notice.

- The school is not responsible for the content, accuracy, or availability of any external sites you want to go in.
- The school is not responsible for any loss of data, or for theft or damage to personal equipment or software.
- Although wireless connections are secured with encryption, the school district is not responsible for users who transmit credit card information, passwords, or any other sensitive personal or business information over the student Wi-Fi network. Antivirus and security protection are the responsibility of the user and not the school.
