

Rebates & Incentives for New York Customers

Save energy and reduce expenses by making your home or building more efficient.

Whether you're a renter, owner, property manager, or developer, we have special offers that can help make your building more comfortable and take control of your energy expenses.

Rebates and Ways to Save:

Energy-Efficient Rebates

Purchasing new electric or gas equipment? Our rebates can make buying energy-efficient appliances easier.

Appliance Recycling

We'll help you recycle your old unit in a safe and environmentally friendly way and pay you \$25 for each unit we pick up.

Clean Heating and Cooling with Heat Pumps

Make your home more comfortable and efficient year-round with clean, heat-pump technology.

Save by Switching to LEDs

Save money and energy by illuminating your home with ENERGY STAR–certified LED bulbs. Get discounted light bulbs through participating retailers now.

Empower+

Can provide no-cost energy efficiency solutions to income-eligible New Yorkers.

Insulation & HVAC Upgrades

Get upfront costs covered when you upgrade your home's comfort and value.

Bring Your Own Thermostat Program

Enrolling in the program allows O&R to make brief, limited adjustments to your central air-conditioner setting on peak days when energy consumption is high in the summer. This helps us reduce demand and increase service reliability. You'll always have control of your thermostat and can change settings at any time.

Energy Affordability Program

You may qualify for a discount on your monthly energy bill if you receive benefits from an eligible governmental assistance program.

You'll be enrolled automatically if an agency notifies us that you receive benefits from these eligible governmental assistance programs:

- Home Energy Assistance Program (HEAP)
- Direct Vendor or Utility Guarantee (DSS grant)

Having trouble managing your energy costs? We're here to help.
