

# Google Apps for Education: Parents & Guardians

## Guide to Each Application

 Google Drive	<p>Google Drive allows students to store files and create Google Docs (like Word), Google Slides (like PowerPoint), Google Sheets (like Excel) and other apps.</p> <p><a href="#"><u>Google Drive Cheat Sheet</u></a></p> <p><a href="#"><u>All About Google Drive</u></a></p>
 Google Docs	<p>Google Docs allows your child to create and edit text documents right in your web browser or on a mobile device—no special software is required. Even better, multiple people can work at the same time, they can see people's changes as they make them, and every change is saved automatically.</p> <p><a href="#"><u>Google Docs Cheat Sheet</u></a></p> <p><a href="#"><u>All About Google Docs</u></a></p>
 Google Slides	<p>Google Slides allows your child to create engaging student presentations and projects thanks to its versatility and design features.</p> <p><a href="#"><u>Google Slides Cheat Sheet</u></a></p> <p><a href="#"><u>All About Google Slides</u></a></p>

## Google Classroom

Google Classroom is a free and secure learning space for teachers, students and schools. It provides a safe way for teachers and students to connect, share content, access homework, participate in discussions and receive class information.

Using Google Classroom allows you and your child to have access to course work at any time through the Internet and is accessible online and through any mobile devices with Internet capabilities—including iPhone, iPad and Android devices. Additionally, the use of Classroom will help keep students informed of due dates, assignments and grades. Classroom is also useful to check on work missed when absent and to ask questions about assignments.

This video allows you to see Google Classroom from your child's perspective.

## Google Sheets

Google Sheets allows your child to create spreadsheets. Your child can use the powerful tools in Google Sheets for organizing, visualizing, and calculating their data.

## Google Forms

Google Forms allows your child to create forms for data collection purposes. Students and teachers can use Google Forms to create surveys, quizzes, and more. The form is web-based and can be shared with respondents by sending a link, emailing a message, or embedding it into a web page or blog post. Data gathered using the form is typically stored in a spreadsheet.
